ABOUT ME

Highly motivated aspiring full-stack developer with a background in home improvement and renovation. Skilled in a variety of programming languages including C, Python, and JavaScript, with experience in web development, algorithms, memory and data structures. Seeking a career path in full-stack computer programming to utilize my technical knowledge and passion for technology.

EXPERIENCE

Maintenance Brothers, Wilmington NC — Renovations Specialist

May 2021 - PRESENT

Led a small team through a series of renovations projects of varying size and length. Ensuring efficiency in our timeline and work-place environment through task delegation and management of subordinates

EDUCATION

Harvard University, Cambridge, MA — Certificate

January 2022-December 2022

Computer Science Certification from Harvard University through CS50 and EdX where the courses' primary focus was on C, Python, Javascript, HTML/CSS Web Development, Algorithms, Memory and Data Structures

PROJECTS

Listify — *List/Purchase Tracking web app*

- Used HTML/CSS, Jinja, Python, SQLite3, and SQLAlchemy to build a site with Flask web framework

Steam Stats — *Steam API Experiment/Data Site*

- Created a web application using Python, Django, React, and JavaScript to display user and friend data in an interactive way

Microblog — *Social media/blogging web application*

Web app that behaved as a blog-posting site formatted similarly to other social medias. Python, Flask, SQLAlchemy and JINJA being primary contributors to the production of the web app, with Javascript, HTML/CSS and other additional languages and tools being secondary contributors.
